

## Tired of Paper Directories?.....We Are.

### **That's Why Genesis Has Developed A Directory That Does It All for You.**

Genesis Directory allows you to look up employee information quickly and easily using its powerful search function. You can include employee information such as email address, location, telephone numbers and any number of user-configurable fields, and search based on any field you wish.

### **Secure & Accessible**

Genesis Directory is fully web-based and allows access restrictions to be set up for individual users. Password protection ensures the directory is secure and accessible only to authorized persons.

### **Automated**

With Genesis Directory, all the work of maintaining a current, efficient company directory is done for you, and you no longer need to deal with filing paper records or manually updating spreadsheets. When used in conjunction with Genesis Call Accounting, the directory package automatically updates to provide you with the most current information.

### **Flexible**

Genesis Directory supports multiple-site configurations, and allows you to consolidate all of your different sites into a single, unified directory. The directory package is compatible with nearly any PBX, and allows you to easily export a company directory (in your preferred format) for use in third-party applications.

### **Reliable**

Genesis is fully committed to superior quality, service and after-sale customer satisfaction. Our expert technicians are available to discuss your particular questions or concerns. When you buy Genesis Directory, the first year's updates and technical support are included.
